

# FINN Consumables Quick Reference

**Tackifiers** Protect your seed from the elements by keeping them in place - rain or shine.

### Standard Tackifier

Binds slurry mix to create sticky conditions which will keep your seed in place  
**ALL-PURPOSE TACK**

### E-Tack

A step up from the standard tackifier E-tack electrochemically binds your mulch particles  
**NOT FOR STRAW APPLICATIONS**

### FiberPlus

Helps bond mulch fibers to create stronger adhesion to soil surface  
**FOR STEEP SLOPES OR WINDY CONDITIONS**

### TackPlus

A blend of Tackifier and FiberPlus.  
**ALL-PURPOSE TACK WITH BENEFIT OF FIBERPLUS**

**Additives** Enhance your seed growth by including additives in your mulch mix.

### HydroMax

FINN's secret formula that helps in the earliest stages of seed growth  
**GERMINATOR / SOIL AID FOR NEW SEEDS**

### HydroGel B

Aids in moisture retention. Able to store water and nutrients up to 500% it's own weight  
**FOR DRY CONDITIONS**

### HPN

Starter fertilizer supplies necessary nutrients for early seed life  
**FERTILIZER FOR NEW SEEDS**

### HLL

Liquid Lime used for adjusting soil pH levels  
**FOR pH ADJUSTMENT**

### GreenPlus

Green dye to give your fiber and paper mulch a better appearance  
**FOR APPEARANCE**
